ABOUT ME

MERN Full Stack Developer with 3 years of experience in designing, developing, and maintaining scalable web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing RESTful APIs, responsive user interfaces, database operations, authentication, role-based access control, and backend business logic. Skilled in debugging, performance optimization, API integration, and Agile software development practices, with experience contributing to enterprise applications such as HRMS and Clinical Vista.

SKILLS

JavaScript , TypeScript , HTML , CSS , React.js , Next.js , Tailwind CSS , Bootstrap , Node.js , Express , MongoDB , Git GitHub , Postman

WORK EXPERIENCE

Srishti innovative
September 2023 – Present

MERN Stack Developer

- Developed scalable RESTful APIs and responsive web interfaces using Node.js, Express.js, and React.js.
- Mentoring and training junior developers.
- Implemented business logic, authentication, role-based access control, and CRUD operations.
- Contributed to HRMS and Clinical Vista across the software development lifecycle in an Agile environment.
- Performed debugging, API testing, error handling, and application maintenance.

PROJECTS

HRMS - Human Resource Management System

- Designed and developed a multi-tenant SaaS HRMS using MERN stack with strict company-level data isolation.
- Developed and enhanced modules for employee management, role-based access control (RBAC), and department tracking.
- Optimized MongoDB queries with indexing and pagination for better performance.
- Structured backend using layered architecture (Routes, Controllers, Services, Middleware).

Clinical Vista (CV)

- Contributed to development of a role-based Clinic Management System handling patient consultation, lab, pharmacy, and billing workflows.
- Implemented secure authentication and Role-Based Access Control (RBAC) for Admin, Doctor, Receptionist, Lab, and Pharmacy modules
- Built consultation module enabling diagnosis entry, prescription management, lab test recommendations, and patient history tracking
- Optimized backend APIs and database queries to ensure efficient handling of patient records, transactions, and reports.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

vidya Academy of Science and Technology

APJ Abdul Kalam Technological University
(2018–2022) – 70%

ACHIEVEMENTS

- Recognized as Best Performer in Learning & Development Team.
- Contributed to enterprise applications including HRMS and Clinical Vista.
- Delivered enterprise applications within Agile sprint cycles.
